

Our Company

ExaGrid is the expert in backup storage — it's all we do.

- 19 years shipping product
- Achieves top line growth every year
- Averages a **70%** competitive win rate
- Wins customer business **83%** of the time when the customer pilots ExaGrid
- **99%** of customers are on M&S
- Earned a Net Promoter Score (NPS) of **+81**
- Over **300+** published customer success stories
- Winner of the most industry awards for backup storage

ExaGrid's Unique Value Propositions

Our Company, Product, and Customer Support

Tiered Backup Storage

Landing Zone Tier

- Fastest backups – avoids inline deduplication bottlenecks
- Fastest restores – no deduplicated data rehydration required

Repository Tier

- Low-cost long-term deduplicated retention storage
- Industry-leading 20:1 data deduplication
 - Global Deduplication
- Adaptive Deduplication
 - Deduplicates and replicates during the backup window
 - Strong offsite RTO and RPO
- AI-Powered Retention Time-Lock for Ransomware Recovery

Scale-out Architecture

- Scales to a 6PB full backup in a single system for HDD and 17.3PB for SSD
- Fixed-length backup window as backup data grows
- Eliminates fork lift upgrades of scale-up architectures
- Mix and match appliances - any age and any size
 - No forced product obsolescence (no end of life of maintenance and support)
- 12 different capacity sized appliance models (8 HDD and 4 SSD)
 - Scales as your data grows

Disaster Recovery Site options

- Can replicate offsite for DR
- DR site capacity is half the capacity of primary – asymmetrical
 - Fewer appliances
 - Lower cost
- Cross replication from site A to B and B to A
- Up to 16 sites in a hub and spoke topology
- Multi-hop – site A to B to C, site A to B, and site A to C
- Public Cloud DR site – Amazon AWS & Azure

Easy to Install Appliance Model

- Remote installation in a few hours

Redundancy

- RAID6 disk storage protection with a hot spare
 - Hot swappable
 - Can survive two simultaneous drive failures
- Redundant power supplies
 - Hot swappable
 - System runs if either power supply fails

Integrated Systems Management and Comprehensive Security

- Single user interface for all appliances in a system and across sites
- Active Directory for management interface and backup target security
- SNMP interface for integration with enterprise management apps
- Role-based access control (RBAC)
- Two-factor authentication (2FA)

Integrated Systems Management and Comprehensive Security

- AI-Powered Retention Time-Lock for Ransomware Recovery
 - Auto Detect & Guard
 - Non-network-facing tier (tiered air gap)
 - Delayed deletes
 - Immutable deduplication objects
- Data encrypted at rest
- Data encryption while replicating over the WAN
- Support of KMIP (Key Management Interoperability Protocol) using KMIP 1.4 standard
- Security checklist makes it easy to apply best practices
- Many other integrated security features that are listed on the ExaGrid Comprehensive Security [web page](#)

Backup Application Support

- Over 25 backup applications and utilities
 - Supports heterogeneous backup application environments
- Veeam
 - SOBR—automation for job management
 - Data Mover
 - Improved backup performance
 - Improved security
 - Support of Veeam Fast Clone—performing a synthetic full takes minutes (increases to 30X faster)
 - Resynthesis of Veeam Fast Clone synthetic fulls into ExaGrid's Landing Zone allows for the fastest restores & VM boots in the industry
 - ExaGrid can be an object store target for Veeam using the S3 protocol
 - Support of Veeam Backup for Microsoft365 direct to ExaGrid
 - Veeam deduplication can be enabled and ExaGrid deduplicates further
- NetBackup
 - Storage target behind NetBackup physical media servers
 - OST integration
 - Accelerator support
 - Auto Image Replication (AIR)
 - Optimized Duplication (Replication)
 - Instant Recovery
 - Granular Recovery Technology (Exchange, SharePoint, VMs)
 - NetBackup Analytics
 - NetBackup Single Target Storage Pool
- Commvault
 - ExaGrid increases Commvault deduplication by 3x, Commvault deduplication and compression can be enabled or disabled
 - Spill and Fill support
 - Data encryption at rest at the drive level for faster performance
- Rubrik
- Cohesity DataProtect
- Oracle RMAN Channel backup support and SQL Dumps Direct

Worldwide Distribution and Support

- Over 5,000 installed customers with tens of thousands of appliances
- Installed in 108 countries
- Spares depots around the world
- Customer support around the world
- Included automatic health check system
- Assigned level-2 support engineer -work with the same senior level tech all the time
